

ÉVOLUTION 6,5 mm / 0,55mm

RIGID VINYL - RCB

UV Treatment

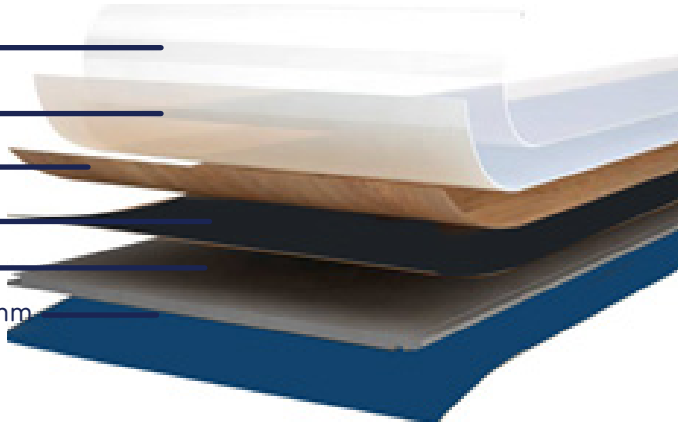

Wearlayer

Color film

Elastic baking

RCB Panel

Built-in underlay XPO 1 mm

Accurate and fast assembly :

VDROP

Waterproof

Compatible with
undersoil water
*low temperature

- 21 dB

Strain resistant
≤ 0,15%

DS

Can be laid directly into
ceramic tiles

Bfl - s1

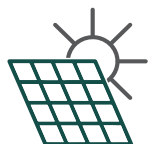

* A VOC rating expresses the amount of volatile material in the interior air which may present a health hazard when inhaled. It is measured on a scale from A+ (very low emissions) to C (high emissions)

ÉVOLUTION 6,5 mm / 0,55mm

RIGID VINYL - RCB

2024

ECO-RESPONSIBILITY

- Solar energy

Photovoltaic energy produced by the Marlenheim site in 2021 = 1 707 MWh

- Energy recovery

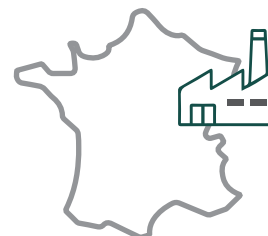

Reusing our heat

- 25% recycled material

Reuse of all our production waste

- 100% recyclable product

- Reduced carbon footprint

Our RCB vinyl is produced in France
