ALSAFLOOR

A manufacturer proud of its efforts for the environment

An environmentally-focused strategy is applied across the whole company to prevent any negative effects on our planet.

Our factory is fitted with photovoltaic panels and a biomass boiler. We burn our wood waste (sawdust) to produce hot water and heat our plant.

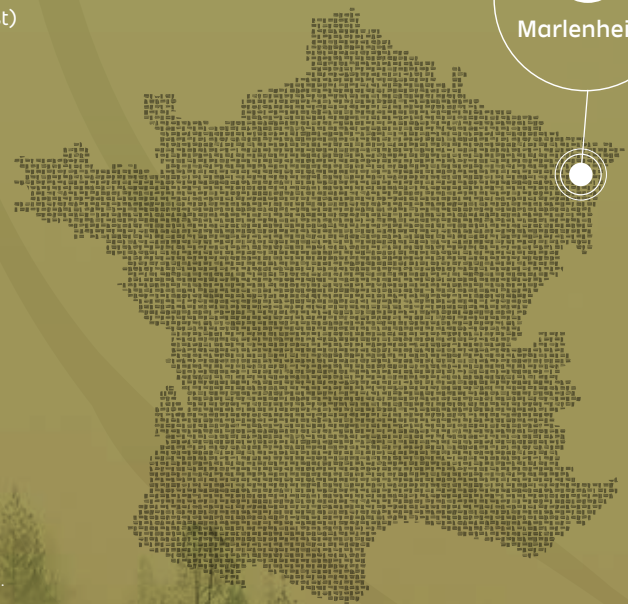

We source our materials via short supply chains in France and the EU.

We are reducing our plastic packaging (100% cardboard).

We equip our sites with low-energy bulbs. No more plastic cups and water fountains. Waste sorting on every site.

Environmentally friendly

Our entire range is PEFC certified (10-31-943), attesting that the wood used in the manufacture of Alsafloor products comes from sustainably managed forests. Our range is classified A+, making indoor air quality a priority.

Our vision for tomorrow's planet !

OUR DREAM PROJECT

Key points are Waste, Resources, Energy, Alsaflooring and Emissions.

All of us, employees, customers, partners and suppliers alike, are involved in this sincere and realistic project.

Our labels:

Information as to emissions of volatile compounds in the indoor air, which might be harmful to the health when inhaled, on a scale from Class A+ (very low emissions) to C (high emissions).

TECHNICAL FEATURES

ACCESSORIES

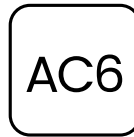

Water resistant

We use innovative technology based on the application of waterproof paint on the bevelling and a specific-purpose impermeable paraffin to make our assembly system watertight. Our WR products comply with NALFA level 1 requirements.

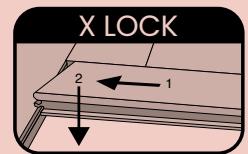

Resistant

Abrasion resistance
AC5 AC6

Easy to install

The 5G® vertical clip system makes installation quick and precise. The XLock developed by Alsaflooring for its Herringbone range simplifies installation. No need for left and right planks, 1 single board is enough!

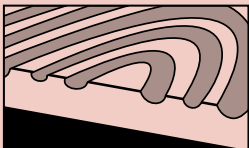

Alsafloor,
a collection...

100%

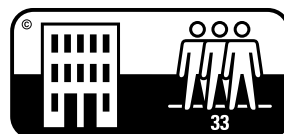

Made in France

Our plant is located in Alsace and we are the only laminate manufacturer in the country.

In-registered texture

A raised surface along the wood veins offers a strikingly realistic sense of authenticity !

Intensive use

Designed and optimised for intensive domestic and commercial traffic.

New In-registered texture!

Alsaflooring is investing in a brand-new matt, velvet-effect, peach-skin in-registered texture.

7 new decors in soft, warm shades, timeless to perfection! Whether in a bedroom, living room, office or any other room in the house, these 7 decors will enhance any space, without overpowering the rest of the interior decoration.

SOLID PLUS HERRINGBONE
SOLID PLUS

Underfoot, the 12mm-thick, water-resistant laminate floor offers subtle, enveloping comfort.

With every stride, it gently absorbs the shocks of everyday life, like a soothing jewel box. Both robust and water-resistant, it keeps the warmth of shared moments intact.

This floor harmoniously combines solidity and grace, turning even the smallest space into a refuge where beauty and comfort are delicately combined.

ALLURE
ALLURE CHIC

Discover our new 10 mm thick laminate. With its classic Herringbone or Mixed-width installation concept, it reinvents floor design for an aesthetic that's both modern and timeless.

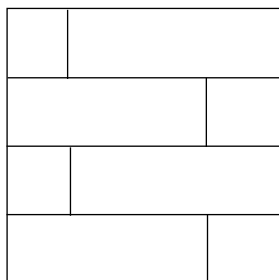

Available in 9 unique decors, this laminate flooring adapts to all styles: from contemporary minimalism to the warmth of classic settings.

Thanks to its tapered panel, while retaining the advantages of a 12mm thick laminate, it combines respect for the environment with durability, without compromising on quality.

Choose a floor that's beautiful, practical and eco-friendly: the new generation laminate that transforms your living spaces.

Packing: 5 pieces/box = 11 ml - 36.09'.
To clip, tack, screw or glue.

Coated quarter round "SCOTIE"

Dim. : 2200 x 16 x 16 mm - 7.22' x 0.63" x 0.63".
Packing: 10 pieces/box = 22 ml - 72.18'.
To clip, tack, screw or glue.

Adaptable covering skirting

Dim. : 2200 x 130 x 16 mm - 7.22' x 5.12" x 0.63"
Packing: 6 pieces/box = 13.2 ml - 43.31'.
Installation: to clip, tack, screw or glue.

Grout liner

Dim. : 10 mm x 5 m - 0.39" x 16.40'.
For application below our filler as part of the Water resistant ALSAFLOORING installation protocol.

Water resistant filler

For application on a joint base as part of the ALSAFLOORING Water resistant installation protocol. 300ml - 10.14 fl oz PE cartridge (=300gr - 0.661 lb).
Sold individually.

Universal skirting adhesive

310 ml - 10.48 fl oz cartridge.
Sold individually.

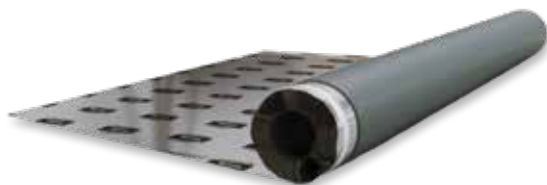

Underlays

2 mm

-18 dB

MULTIPROTECT ACOUSTIC Técnico y versátil

1 roll = 8 m² - 86.11 ft²

PU+PET underlay lined with an aluminium vapour barrier. 26 % airborne noise reduction. High load resistance.

2,15 mm

-20 dB

ALSAFOAM Económico (2 en 1)

1 roll = 25 m² - 269.10 ft²

Acoustic PE underlay ready-fitted with a vapour barrier (200 µ) and overlap strip.

2,2 mm

-19 dB

AQUASTOP Acústico y térmico

1 box = 6 m² - 64.58 ft²

3-in-1 folding XPS+PET underlay, including integrated vapour barrier and overlap strip. 14 % airborne noise reduction.

5 mm

-19 dB

1,8 mm

-22,5 dB

FLOORISOL Ecologic and thermic

1 box = 7 m² - 75.35 ft²

Stable and durable wood fibre tile underlay. Compensates for gaps of up to 3 mm - 0.12".

ALSAPROTECT

1 box = 20 m² - 215.25 ft²

It prevents moisture rising. Suitable with Floorisol and Conforlay.

CONFORLAY Technique and efficient

1 box = 7 m² - 75.35 ft²

Wood fibre underlay. High airborne noise reduction 42 %. Very high load resistance.
